

### ACCOFRA CIM2

30L | 215L

#### Various product

Product especially developed to facilitate demoulding of concrete from metal or wooden moulds.

It will be applied as it is, without any mixing or preliminary preparation, its covering power varies from 20 to 30 m<sup>2</sup> per liter depending on the use, the method of application and the nature of the formwork.

Applied to metal, wood, plywood or cement molds or slabs in which the mortar is compressed by vibration, compression or centrifugation, it allows the direct application of paint or coating to the cement after natural drying or heating.

#### **MANUAL**

Apply without excess to clean molds and slabs, preferably to the sprayer or spray gun (pressure 3 to 4 kg) or brush at the rate of one liter for 20 to 30 m<sup>2</sup>.

#### **Technical data**

Density at 20°C : 0.85  
Flash point (°C) : > 65
